Kerugoya, Kenya

**Subject: Application for ICT Teaching Position**

Dear Hiring Manager,

I am excited to apply for the ICT Teaching Position at Lake Institute of Tropical Medicine, Kerugoya. With a Bachelor of Science in Information Technology, extensive hands-on experience in software development, AI applications, cybersecurity, and database management, and a passion for teaching and mentorship, I am eager to contribute to your esteemed institution.

Over the years, I have worked on various ICT projects, including a mobile-based QR code student attendance system, an AI-driven project management tool, and an e-commerce platform. These projects have deepened my understanding of real-world IT challenges, equipping me with the practical knowledge to train students in both fundamental and advanced ICT concepts.

Additionally, my experience as a Data Analyst and Machine Learning Engineer has enabled me to integrate modern data science techniques into learning environments, fostering an appreciation for emerging technologies among students. My proficiency in software development, cybersecurity, and cloud computing positions me well to contribute effectively to your curriculum.

Beyond technical skills, I am an excellent communicator and mentor, dedicated to creating an engaging and inclusive learning atmosphere. I believe that by combining theoretical knowledge with hands-on projects, students can develop the critical thinking and problem-solving skills required in today's competitive digital world.

I would welcome the opportunity to discuss how my expertise aligns with your institution's goals. Enclosed is my **CV** for your review. I look forward to the possibility of joining your team and contributing to the success of your ICT department.

Thank you for your time and consideration.

Sincerely,

**Aura Orimba Dominic**
